2021**

NEW YEAR OFFER

10% OFF!

**IN THE MONTH OF
JANUARY 2021**

For the month of January only, we are offering a big 10% discount on all our Your_Space outdoor rooms. Everyone feels the pinch after the seasonal holidays...let us help a little! Take advantage of our offer, and perhaps put the saving towards some furniture or accessories for the interior of Your_Space.

(offer excludes Flyscreens and switchable glass film)

IS YOUR NEW YEAR'S RESOLUTION TO WORK FROM HOME MORE?...

...or to build that gym, extra guest room or pool room you've been dreaming of? We at Your_Space have done just that. Our own 'Work HQ' is located in our back garden space and forms an extension of our home. We didn't want to do the everyday commute anymore, as the current situation we're in at the moment has given us that opportunity. Working from home full time or part time may be here to stay, so having your own quiet space away from the domestic side of your life to focus on work is not only luxury...it is essential.

Your_Space has many standard designs, all with different footprint sizes to suit your plot size and window, door, flooring and electrical options. We are more than happy to custom build so you get exactly what you want from your build and add some of our options to make it a truly individual space. All Your_Space outdoor rooms are fully insulated to a level well above local standards and come as standard with Air conditioning, Power sockets and Led lighting. Fixed Internet connection upon request.

INTRODUCING....

We have listened very carefully to all your feedback over the last few months and we have done some development at Your_Space which we hope you like.

What has become clear is that some of you would like a smaller more budget friendly option in the range... so we are proud to introduce our new product 'Plug & Play'. This is our first mobile, transportable home office option in our lineup. 'Plug & Play' is delivered to your home as a complete unit that simply plugs into a pre prepared socket attached to a wall.

LOCATE IT ANYWHERE, IT'S ON WHEELS!

'Plug & Play' can be located in your carport, garage, or your garden. If access is a problem, we can deliver in pieces and assemble in a location of your choice. Like all the other Your_Space options, it comes as standard with air conditioning, power socket, led lighting, internet connection via an extender or fixed line (optional).

Transported to
your home

FOCUS ON ACCESSORIES...

SWITCHABLE GLASS FILM

Your_Space now offers an alternative window treatment to traditional blinds and curtains. Switchable glass film is quick and easy to install directly onto the glass in both the doors and windows. When the handheld remote is pressed, the film instantly transforms from clear to translucent. This ensures privacy and reduces the amount of light entering the room. Press the switch again and it returns back to clear! As with the fly screens, it can be fitted during the installation of Your_Space or retrofitted after.

ROLLER FLY SCREENS

Flies, and most especially mosquitos, are a problem for many communities in Dubai during the winter period. This is the time when you want to throw open your double / bifolding doors to enjoy the milder climate, without having to suffer from biting insects. Your_Space can now offer side mounted rolling fly screens that blend seamlessly with the door frames with the same RAL colour. This provides a neat and discrete solution that runs in a top and bottom track, with a magnetic fixing in the centre when drawn together in the middle.
